INVITATION TO BID
FOR THE IMPLEMENTATION OF THE MINISTRY OF HEALTH CLINICAL
WASTE MANAGEMENT PROJECT

On behalf of the Gambia Government, the Ministry of Health (MOH) hereby launch a competitive bidding process to procure a private partner to operate and maintain the 250 and 75 plus Ecosteryl series incinerator. MOH aims to contract a private investor who has the skill, knowledge, ability, and expertise in the collection, treatment, disposal/recycling, and added value services of clinical wastes from both public and private health facilities.

The need for this project is to manage clinical wastes produced in the course of health care activities which carries a high potential for infection and injury, and its poor management which poses health risks, direct and indirect, not only to health institutions' patients, clients, health workers, waste handlers, and support staff but also to the community and the environment at large.

In light of the above, interested firms are invited to bid for the operation and maintenance of the Ministry of Health Clinical Waste Management project. A complete set of the bidding document will be supplied to interested bidders upon payment of a **non-refundable fee of USD 5,000.00 (Five Thousand Dollars) to the Ministry of Health, The Quadrangle, Banjul, The Gambia.**
