Groundnut Production in The Gambia

Project Profile
Why The Gambia?

- Situated on the Atlantic coast and with a navigable river that flows more than 1,100km inland, The Gambia is the ideal entry and exit point for West Africa and the Economic Community Of West African States (ECOWAS)

- This document outlines:
  1. The market opportunity for investment in groundnut production
  2. The favourable conditions available to investors
  3. The support investors can expect to receive

The most competitive country in West Africa

Average Crop Production one of the highest in West Africa

Home to the only West African river easily accessible to ocean-going shipping

The best agricultural policy framework in West Africa

Economic indicators

- **GDP**: US$752mn in 2011 – predicted rise to $941mn by 2015

- **GDP growth**: 3.3% in 2011 – predicted annual growth average of 5.9% between 2012-2015

- **Country risk**: Lower risk level (yellow) than all neighbouring countries and in the same category as Sierra Leone, Ghana, Togo and Benin

- **CPI Inflation (2011)**: 4.4%

- **Exports / Imports value (2011)**:
  - Exports: $94.7mn
  - Imports: $343.69mn

- **Labour force (2008)**: 400,000

- **FDI stock and inflows (2011)**: $703mn stock / $36mn inflows

- **Currency exchange rates 2012 – highs (H) and lows (L)**:
  - GMD/USD: 0.033 (H) / 0.029 (L)
  - GMD/GBP: 0.021 (H) / 0.018 (L)
  - GMD/EUR: 0.028 (H) / 0.022 (L)

Groundnut Production in The Gambia

- The Gambia offers the ideal environment for groundnut production in terms of arable land, climate, know-how and available skills.

- Groundnuts are grown throughout The Gambia and constitute one of the country’s key exports.

**KEY FACTS:**

- 25,000 metric tonnes (MT) of groundnut commercial purchases in 2011

- Groundnut export trade value of US$1.93 million in 2011 (compared with $1.07 million in 2007)

- 558,000 hectares of arable land, of which 81,000 hectares is irrigable

- 42% of cultivated land planted with groundnut in 2012

- Agriculture employs 78.6% of the labour force and accounts for 30% of GDP

- Groundnuts contribute around 23% to agricultural GDP

1. Ministry of Trade, Industry, Regional Integration and Employment: Mid-term programme 2013-16
2. UN Commodity Trade Statistics Database

4. GIEPA Investment Guide 2012

By-products and processing potential

- Groundnuts are the base of a diverse set of products – a recent report by the US Department of Agriculture’s Foreign Agricultural Service stated it is possible to derive 63 derivatives products from raw peanut – a small selection of these are presented here.

- Investors in groundnut production in The Gambia therefore have the opportunity not only to export raw nuts, but also to consider processing activities that would enable value-added products to be developed and sold at a premium.

- Very little groundnut processing is currently done in the Gambia, and many current exports are sold as low-value products (e.g. birdfeed) - this presents an untapped area of potential investment.

---

Locations

- Groundnuts can be grown in almost all parts of The Gambia, with current production concentrated along the north bank and south bank areas.

- The west coast offers easy access to Banjul port and airport, while the north and south roads and navigable river ensure easy access from the rest of the country.

Infrastructure

- Banjul port has a handling capacity of:
  - 48 metric tonnes of bulk cargo per hour
  - 17 container moves (discharging and loading) per hour

- Other new infrastructure / upgrades in development:
  - The Trans-Gambia bridge (completion due 2017)
  - Improved cross-border trunk roads with Senegal
  - Ports Expansion Programme underway – Gambia Ports Authority planning to build a second port on the Atlantic coast
  - Ongoing infrastructure upgrades at Banjul International Airport

The Gambia’s groundnut community

- The Gambia is already home to a developed community of stakeholders in the groundnut industry (including businesses, industry associations and representative groups) - a few examples of these organisations are displayed below

- The presence of these groups demonstrates The Gambia’s attractiveness and potential as a prime location in West Africa for the production, small-scale processing and export of groundnuts and related products

“I think we entered the [Gambian] market at a very exciting time, when government is trying to prioritise cum mechanise and make the agricultural sector more attractive.”

Momodou S Samateh
Director of Administration
New Nut Company
Export agreements

- Groundnuts and other Gambian agricultural products can be exported at preferential duty rates and quota free to:
  - ECOWAS markets under the ECOWAS Trade Liberalization Scheme (ETLS)
  - EU market under the Everything But Arms (EBA) Initiative offered by the European Union
  - US market under the African Growth and Opportunity Act (AGOA)
  - India, Brazil and South Korea under preferential duty rates for products from Least-Developed Countries (LDCs)
Availability of incentives

A host of incentives are available to investors in the groundnut production and processing sectors, provided certain criteria relating to investment value and job creation are met. These incentives include:

- **Tax Holiday:** tax breaks on corporate and turnover tax, withholding tax on dividends and for a period of 5-8 years, depending on the project’s location

- **Import Tax Incentives:** Exemption from payment of import tax on direct inputs for the project (e.g. agricultural machinery)

- **Export Incentives:** Exemptions / reductions on corporate and turnover tax, exemption from Excise Duty and Sales Tax on goods produced or imported within the Export Processing Zone (EPZ) for processing and export – depending on proportion of goods exported

- **No export tax on agricultural products**

1. To access incentives, a new investment must be worth at least US$250,000 and lead to the creation of at least five jobs in the agriculture sector. Source: GIEPA Regulations 2012. More information on criteria available from GIEPA.
Operating costs

- The Gambia has by far the most efficient labour market in West Africa and offers competitive costs in key areas such as agricultural labour.

- Preferential rates for key utilities such as energy and water are offered to operators in the agricultural sector.

- The cost of nut shipments from Banjul to key European ports are broadly in line with other ports in West Africa.

INDICATIVE KEY COSTS:

- Average daily wages for unskilled labour hover between US$2-4 a day

- Energy: 9.10 GMD / kWh: (agriculture tariff)

- Water: 10.37 GMD / cubic metre (agriculture tariff)

- Nut shipments to Europe: c.1,050 EUR

- Key taxes: - Corporate: 32% (exemption possible)
  - Income: up to 30%
  - VAT: 15%

2. Program for Accelerated Growth and Employment 2012-15
3. GIEPA Investment Guide 2012
4. Based on a quote from Maersk Gambia for a shipment of a 20ft container from Banjul to Felixstowe (UK), covering freight and local charges at each port. Quote provided on: 13/2/13
Government policy position

- The Gambian Government recognizes the importance of private sector participation in the economy, both as an engine of growth and as a source of knowledge transfer. The Gambia National Agricultural Investment Programme (GNAIP) 2011-2015 is the national strategic framework for accelerated growth, poverty reduction as well as food, nutrition and income security.

- As part of the Government’s efforts to promote industrial development, it is currently implementing a UNIDO Country Programme that includes a focus on the groundnut sector.

- The Government also plans to:
  - Increase the number of accredited laboratories – supported by the EU-funded West African Quality Programme
  - Establish the Gambia Food Safety and Quality Agency (GFSQA), following the passing of the GFSQA Act in 2011

- The Ministry of Trade, Regional Integration and Employment (MOTIE) has recently finalized a Quality Assurance Framework for groundnuts.¹

A helping hand – every step of the way

- The Gambia Investment and Export Promotion Agency (GIEPA) is the Government Agency mandated to support companies with their investment, business and export development as well as support to MSMEs.

- From the initial provision of information right through to supporting the establishment, growth and development of an investment project, GIEPA is your supporting partner for doing business in The Gambia – every step of the way.

- Here are just a few of the ways in which GIEPA can support your business:

  - Provide all business-related information to current and potential investors
  - Serve as the link between investors and authorities
  - Help to identify joint venture partners
  - Help to obtain licences, land, clearances etc.
  - Provide advisory services and training to exporters
  - Support companies planning to expand / diversify
  - Provide ongoing assistance to companies once they’ve started operations
  - Administer and advise on incentives
